

New MRI Centre

Opens April 2006

Forth Valley and Alliance Medical MRI Centre at Falkirk & District Royal Infirmary

A state-of-the-art MRI centre is available for patients, featuring a brand new scanner in a purpose built centre costing £1.5 million.

This leading edge facility combines:

- **A new Siemens 1.5 Tesla MRI Avanto** scanner featuring advanced TIM technology.
- **Full range of peripheral coils** enabling examinations for a wide range of specialties including Neurology, Orthopaedics, Rheumatology, General Surgery, Oncology, Urology, Full Cardiac and Cardiovascular Imaging, Breast Medicine and ENT as well uses for Abdominal, Liver and Biliary scans.
- **Image transfer system** for faster results. The images can be sent electronically (and securely) to specialists in locations remote from the centre, and results returned next day normally.
- **Staffed by experienced Radiographers**
- **The service** is focussed on delivering fast and efficient patient service, providing instant access to high quality imaging using the latest technology.
